

June 5, 2006

Dear Physician:

I am writing to let you know that as of June 30, 2006 the CareEnhance® **Disease Management Program** and 24 hour nurse line will no longer be offered to Washington Medicaid clients. Thank you for your participation in this program. We hope it has helped your Medicaid patients improve **their chronic condition** self management skills and better adhere to your care plan.

Clients may continue to call the nurse line for health advice through June 30. All other Medicaid benefits remain intact. If you or your patients have questions, please call 1-800-562-3022.

Sincerely,

Carolyn M. Coyne, MD, MHA
Senior Medical Consultant
Division of Medical Management
Medical Assistance Administration

Sincerely,

Maureen Mangotich, MD
Chief Medical Officer
